## PERSONAL PROJECTS

- Smart Job Prep Assistant** May 2025
  - As the sole PM and engineer, I **road mapped** and built an AI-driven resume tool that analyzes job descriptions to generate prioritized bullet-point rewrites, STAR-method stories, and keyword insights—cutting user draft time by 35 %. I owned **feature prioritization**, set KPIs (resume submission rate, time-to-first-draft), **instrumented analytics**.
- Mental Fitness Journal** June 2025
  - I single-handedly conceived, developed, and shipped a full-stack journaling app with secure authentication, CRUD entry management, and an AI-powered emotion analysis engine that visualizes mood trends. I translated the **product vision** into **user stories** and **wireframes**, and handled **backlog grooming**, **sprint planning**.
